

# TASK:

Students will practice addition problems by matching the addition problem to the correct answer

Created by Danielle Lucier

## MATERIALS:

- ✓ Plastic eggs
- ✓ Tupperware container
- ✓ Permanent marker

## TARGETED SKILLS:

- ✓ Memorization of addition problems (cognitive)
- ✓ Hand muscles- opening and closing (motor skills)
- ✓ Working with a friend (communication skills)

## IDEAS FOR DIFFERENTIATION:

### Modifications/Adaptations:

- ✓ Have the bottom and top part of eggs match for students that are beginning addition skills.
- ✓ Use larger eggs so the numbers are larger for students with visual impairments
- ✓ Use fewer numbers for those who are beginning addition

### Extensions or Other Ideas to Use This Activity:

- ✓ Use more numbers for those who are excelling with addition
- ✓ Use larger numbers to challenge high-flyers
- ✓ Have addition and subtraction problems for high-flyers
